

1. Record Nr.	UNINA9910782880203321
Titolo	Guidelines for use of glass in buildings [[electronic resource] /] / edited by N.K. Garg
Pubbl/distr/stampa	New Delhi, : New Age International (P) Ltd., Publishers, 2007
ISBN	1-282-07415-6 9786612074158 81-224-2635-2
Descrizione fisica	1 online resource (150 p.)
Altri autori (Persone)	GargN. K
Disciplina	721 721.04496
Soggetti	Glass construction Glazing Safety glass
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references (p. [125]-129).
Nota di contenuto	Cover; Preface; Contents; Chapter 1. Introduction; Chapter 2. Types of Glass, Properties and Uses; Chapter 3. Selection of Specific Glass; Chapter 4. Determination of Appropriate Glass Thickness; Chapter 5. Glazing Systems; Chapter 6. General Guidelines; Reference Material; Definitions
Sommario/riassunto	About the Book: More and more glass is being used in buildings. It is no longer considered a fragile material. It is recyclable and affordable. Glass is available in a wide range of architectural, structural, optical and acoustical properties to address the varying requirements of buildings. Knowledge about the use of glass in buildings along scientific lines is a ?gap? in the presently available literature. The book is an attempt to focus on comprehensive guidelines for use of glass in buildings. It covers: Evolution of glass to the present state Glass types with their properties and uses
