Nota di bibliografia Nota di contenuto Ancestors, ghosts, and Gods in ancient China -- The Han cult of the dead and salvific religion -- Shanxiao: mountain goblins -- Plague demons and epidemic Gods -- The song transformation of Chinese religious culture -- Wutong: from demon to deity -- The enchantment of wealth. The most striking feature of Wutong, the preeminent God of Wealth in Sommario/riassunto late imperial China, was the deity's diabolical character. Wutong was perceived not as a heroic figure or paragon of noble qualities but rather as an embodiment of humanity's basest vices, greed and lust, a maleficent demon who preyed on the weak and vulnerable. In The Sinister Way, Richard von Glahn examines the emergence and evolution of the Wutong cult within the larger framework of the historical development of Chinese popular or vernacular religion-as opposed to institutional religions such as Buddhism or Daoism. Von Glahn's study, spanning three millennia, gives due recognition to the morally ambivalent and demonic aspects of divine power within the common

Chinese religious culture.
