

1. Record Nr.	UNINA990007891980403321
Autore	Mazzola, Guerino
Titolo	Comprehensive mathematics for computer scientifics 1 : Sets and numbers graphs and algebra,logic and machines linear geometry / G. Mazzola,G.Milmeister,J.Weissmann
Pubbl/distr/stampa	Berlin : Springer, c2004
ISBN	3-540-20835-6
Descrizione fisica	xii,357 p. ; 24 cm
Collana	Universitext
Altri autori (Persone)	Milmeister, Gerard Weissmann, Jody
Disciplina	515
Locazione	MA1
Collocazione	C-6-(148
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia

2. Record Nr.	UNISA996321784203316
Titolo	Connections : bulletin of the International Network for Social Network Analysis
Pubbl/distr/stampa	Toronto : , : International Network for Social Network Analysis, , 1977- Tampa, Fla. : , : International Network for Social Network Analysis [Berlin] : , : Walter de Gruyter/Sciendo
ISSN	2816-4245
Descrizione fisica	1 online resource (volumes)
Disciplina	302/.072
Soggetti	Social structure Sociometry Sociology - Research Sociology - Mathematical models Social sciences Sociologie - Recherche Structure sociale Sociométrie Sociologie - Modèles mathématiques Sciences sociales Periodicals
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Periodico
Note generali	Refereed/Peer-reviewed Official journal of the International Network for Social Network Analysis
Nota di bibliografia	Includes bibliographical references.

3. Record Nr.	UNINA9910782968203321
Autore	Meniru Godwin I (Godwin Ikechukwu), <1960->
Titolo	Cambridge guide to infertility management and assisted reproduction / / Godwin I. Meniru ; foreword by Alvin Langer [[electronic resource]]
Pubbl/distr/stampa	Cambridge : , : Cambridge University Press, , 2001
ISBN	1-107-11144-7 1-280-15164-1 9786610151646 0-511-11589-X 0-511-02079-1 0-511-15504-2 0-511-30377-7 0-511-54521-5 0-511-05230-8
Descrizione fisica	1 online resource (xiii, 276 pages) : digital, PDF file(s)
Disciplina	616.6/9206
Soggetti	Infertility Human reproductive technology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from publisher's bibliographic system (viewed on 05 Oct 2015).
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Cover; Half-title; Title; Copyright; Dedication; Contents; Preface; Foreword; Acknowledgements; Introduction; 1 The male reproductive system; 2 The female reproductive system; 3 Fertilization, implantation and early development; 4 Male factor problems; 5 Female factor problems; 6 Evaluation of the infertile couple; 7 Medical and surgical treatment of infertility; 8 Conventional in vitro fertilization treatment; 9 Intracytoplasmic sperm injection; 10 Surgical sperm retrieval; 11 Intratubal replacement of gametes and embryos (GIFT, ZIFT); 12 Intrauterine insemination 13 Cryopreservation of gametes, ovarian tissue, testicular tissue and embryos frozen embryo replacement; 14 Assisted hatching; 15 Preimplantation diagnosis of genetic disease; Appendix; Index
Sommario/riassunto	This well-illustrated publication provides concise yet comprehensive

practical information on the modern-day approach to the diagnosis and treatment of infertility. It starts from basic principles of reproductive physiology, before moving on to the medical causes of infertility, and then describes and explains the full armory of techniques from IVF to ICSI and even newer technologies used to treat infertility in all its manifestations. The aim throughout is to explain issues clearly, simply and directly in such a way that will be understood by doctors, scientists and nurses alike. By combining basic science and medical aspects, along with 'how it is done' descriptions of techniques and medical interventions, this book offers an unsurpassed introductory account of this fast moving area and is highly suitable for the full range of personnel involved in looking after the infertile patient, including trainees in medicine and nursing, clinical embryologists, andrologists, ultrasonographers and counsellors.

Nota di contenuto	Chapter 1: William Stern and Personalistic Thinking: Making Acquaintance -- Chapter 2: Impersonalism -- Chapter 3: The Concept of the Person and the Problem of Freedom -- Chapter 4: Personalistic Psychology -- Chapter 5: The Personalistics of Recollection -- Chapter 6: The Problem of Individuality in Scientific Psychology -- Chapter 7: Personality Research and the Methods of Testing -- Chapter 8: The Personal Factor in Psychotechnics and Practical Psychology -- Chapter 9: Meaning and Interpretation -- Chapter 10: Conceptual Work Matters.
Sommario/riassunto	This book brings together the central tenets of William Stern's critical personalism. Presented for the first time for an English-speaking audience, this selection of original translations and essays encapsulates the critical framework of Stern's personalistic psychology. The selected works highlight the philosophical basis of Stern's personalistic views, illustrate their relevance in domains of theoretical and practical importance in psychology, and reveal Stern's critical stance on certain methodological trends that were gaining favor within psychology during his lifetime. Lamiell's own chapters contextualise the translations by providing an overview of the most basic tenets of critical personalism, and offering a commentary on paradigmatic commitments within scientific psychology's mainstream that began to impede Stern's efforts prior to his death, and that remain obstacles to personalistic thinking in the discipline today. Largely ignored by his contemporaries, this work forms part of an emerging body of scholarship that seeks to reintroduce Stern's thinking into contemporary psychology. The book is intended for academically oriented scholars with interests in historical, theoretical and philosophical issues in psychology. James T. Lamiell is Professor Emeritus of psychology at Georgetown University, USA. He is a three-time Fulbright scholar to Germany, and has been engaged with the writings of William Stern for over 30 years. As a visiting professor at the University of Hamburg in 2004, he delivered a series of public lectures on Stern's life and works.
