Nota di contenuto	Title; Copyright; Contents; Section A This book is about learning; Section B Workshop activities for teachers; Section C Classroom activities to promote learning about learning; Section D The wider context; Section E Effective learning: a research review; Section F Further reading
Sommario/riassunto	This practical A4 pack contains activities and ideas for teachers and students to learn more about learning. Learning about Learning is a practical way of teaching important and neglected theories of learning. The idea is that if teachers and students learn about what learning is and how it happens they understand a greater range of learning possibilities and approaches and improve their learning and teaching skills.
