Nota di contenuto	Contents; Editorial board; Abstracts and keywords; Guest editorial; Odd girl out; Woman and information systems development; Making nursing visible?; Computers in the home: domestication and gender; Book review; Internet review
Sommario/riassunto	The last few decades have shown a remarkable reappraisal of the small business sector. Since the 1970's, the gloomy orthodoxy notwithstanding, a large number of people have set up shop and managed to survive in an increasingly global economy. Their role in the economy has been publicly acknowledged by now, as has been amply demonstrated by the drastic liberalization of their regulatory environment.
