Nota di contenuto	Contents; Abstracts and Keywords; Guest editorial; Time-span and risk of partner opportunism in strategic alliances; Moments of trust; Time and strategy; Changing a cultural grammar?; Perceptions and experience of time-space compression and acceleration; Managerial nostalgia; Note from the publisher
Sommario/riassunto	Time has been referred to as the hidden dimension (Hall, 1983), an implicit challenge that for many years went largely unanswered in the field of management studies. A few pioneers explored aspects of temporality in organizational studies (for an excellent review see Bluedorn, 2002; Das, 1986), but for the most part the discipline seemed content to go along with unexamined assumptions and peremptory conclusions. Previously published in: Journal of Managerial Psychology, Volume 19, Number 8, 2004
