Nota di bibliografia	Includes bibliographical references (p. 56-57).
Nota di contenuto	Preliminaries; Contents; The project team and partners; Preface; Executive Summary; Introduction; Methodology; Results by themes; Brief review of selected topics; References; List of Respondents
Sommario/riassunto	The WHO's Atlas on Country Resources for Neurological Disorders (Neurology Atlas) presents for the first time, the most comprehensive collection and compilation of information on neurological resources across 109 countries covering over 90% of the world population. The World Federation of Neurology (WFN) collaborated closely in the collection and analysis of the data and the development of the Neurology Atlas, with the active participation of leading experts in neurology all over the world and valuable assistance from WHO regional advisers and WHO country representatives.
