

1. Record Nr.	UNINA9910456322903321
Autore	Yeung Rob
Titolo	Networking [[electronic resource] ] : the new rules // Rob Yeung
Pubbl/distr/stampa	London, : Marshall Cavendish, 2009
ISBN	981-4312-29-0
Descrizione fisica	ix, 165 p
Disciplina	650.13
Soggetti	Business networks Success in business Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph

2. Record Nr.	UNINA9910783230003321
Titolo	Fetal and neonatal brain injury : mechanisms, management, and the risks of practice // edited by David K. Stevenson, William E. Benitz, and Philip Sunshine ; foreword by Avroy A. Fanaroff
Pubbl/distr/stampa	Cambridge : , : Cambridge University Press, , 2003 ©2003
ISBN	0-511-30713-6 1-280-16087-X 9786610160877 0-511-11982-8 1-139-14738-2 0-511-06379-2 0-511-05746-6 0-511-54477-4 0-511-07225-2
Edizione	[Third edition.]
Descrizione fisica	1 online resource (xviii, 907 pages) : illustrations; digital, PDF file(s)
Disciplina	618.92/8
Soggetti	Brain - Diseases Brain-damaged children Brain - Wounds and injuries Fetus - Diseases Fetal brain - Growth Newborn infants - Diseases Newborn infants - Wounds and injuries
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Epidemiology, pathophysiology and pathogenesis of fetal and neonatal brain injury -- Pregnancy, labor, and delivery complications causing brain injury -- Diagnosis of the infant with asphyxia -- Specific conditions associated with fetal and neonatal brain injury -- Management of the depressed or neurologically dysfunctional neonate

-- Assessing the outcome of the asphyxiated infant.

---

Sommario/riassunto

Now in its third edition, this is a comprehensive survey of fetal and neonatal brain injury arising from hypoxia, ischemia or other causes. The publication spans a broad range of areas from epidemiology and pathogenesis, through to clinical manifestations and obstetric care, and then on to diagnosis, long-term outcomes, and medico-legal aspects. An important theme running throughout is to highlight scientific and clinical advances that have a role to play in minimising risk, improving clinical care and outcomes. The text describes how placental abnormalities, imaging studies and laboratory measurements can identify the timing and severity of the injury event. Despite these advances, fetal and neonatal brain injury remains a major concern with devastating consequences. It is hoped that this definitive account will provide the clinician not only with a better understanding of the mechanisms involved but also with the best available knowledge necessary to deal with this intractable problem.
