                       application behaviour; Multi-dimensional personalisation for location
                       and interest based recommendation

   Sommario/riassunto The 4th International Network Conference (INC 2004) The papers in
                       this issue of Internet Research are based on a selection of submissions
                       from INC 2004, the 4th International Network Conference, which was
                       held in Plymouth, UK, from 6-9 July 2004. INC events have been
                       running since 1998, and provide a forum for sharing the latest research
                       in computer networks and related technologies.Previously published in:
                       Internet Research, Volume 14, Number 5, 2004
