Sommario/riassunto

The first authoritative volume on the totality of Buddhism in the West, Westward Dharma establishes a comparative and theoretical perspective for considering the amazing variety of Buddhist traditions, schools, centers, and teachers that have developed outside of Asia. Leading scholars from North America, Europe, South Africa, and Australia explore the plurality and heterogeneity of traditions and practices that are characteristic of Buddhism in the West. This recent, dramatic growth in Western Buddhism is accompanied by an expansion of topics and issues of Buddhist concern. The contributors to this volume treat such topics as the broadening spirit of egalitarianism; the increasing emphasis on the psychological, as opposed to the purely religious, nature of practice; scandals within Buddhist movements; the erosion of the distinction between professional and lay Buddhists; Buddhist settlement in Israel; the history of Buddhism in internment camps; repackaging Zen for the West; and women's dharma in the West. The interconnections of historical and theoretical approaches in the volume make it a rich, multi-layered resource.

Sommario/riassunto	This book proposes a new Ethics of Political Commemoration adapted from the Just War tradition, reflecting that remembrance is often conducted with political – and even coercive – intent. With its Ius ad Memoriam (what to commemorate) and Ius in Memoria (how to commemorate) criteria, the framework looks to guide debates that are currently inchoate so that remembrance of the past can transform

relationships in the present and build a shared future. Offering a moral argument with memorable illustrations, Gutbrod and Wood draw on experiences from Armenia, Georgia, Ireland, Lebanon, and Libya, while connecting to mainstream debates in Western Europe and the United States. Bringing together an ethical tradition with the practice of conflict transformation, the framework fuses two perspectives that enrich each other. The book, in providing a first systematic presentation of the ethics, seeks to engage citizens and scholars, and help those who work to transform conflicts. .
