Sommario/riassunto	"In direct, clear language, Anne-Marie Delcambre shows that many of the prohibitions and constraints as well as the problems and difficulties of the Muslim religion in the world today are not simply fundamentalist aberrations but, on the contrary, derive directly from the very essence of Islam itself. Many of the elements of these proscriptions, interdictions, and commands are, in fact, to be found in the Qur'an and in authentic Muslim tradition. This is, indeed, the case in such matters as the discriminatory status assigned to Jews and Christians, the call to Holy War (Jihad) and even to murder, the position of women, the uncritical and anti-historical approach to the fundamental texts of Islam, the place of the Prophet, etc."--BOOK JACKET
