

1. Record Nr.	UNINA9910783464503321
Autore	Ogden Bill
Titolo	IBM system z9 109 technical introduction [[electronic resource] /] / Bill Ogden, Jose Fadel, Bill White
Pubbl/distr/stampa	San Jose, CA, : IBM, International Support Organization, c2005
Descrizione fisica	1 online resource (106 p.)
Collana	IBM redbooks
Altri autori (Persone)	FadelJose WhiteBill
Disciplina	004.145 I12 Ogd 2005 [ONLINE]
Soggetti	Computer networks - Security measures IBM computers
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	"July 2005." "SG24-6669-00." Includes index.
Sommario/riassunto	This IBM Redbook introduces the IBM System z9 109 (z9-109), which offers a continuation of the IBM scalable mainframe servers. The z9-109 server is based on z/Architecture and provides extensions to the architecture. In addition to increased performance and expansion options, particular emphasis has been placed on the integration of the z9-109 into a complete system and software environment.
