| | Titolo | IBM Tivoli Storage Manager in a clustered environment [[electronic resource] /] / Roland Tretau ... [et al.] |
| | Pubbl/distr/stampa | San Jose, CA, : IBM Corp., International Technical Support Organization, c2005 |
| | Edizione | [1st ed.] |
| | Descrizione fisica | lii, 1069 p. : ill |
| | Collana | Redbooks |
| | Disciplina | 005.8/6 |
| | Soggetti | Electronic data processing - Backup processing alternatives |
| | | Data recovery (Computer science) |
| | | Computer networks - Management |
| | Lingua di pubblicazione | Inglese |
| | Formato | Materiale a stampa |
| | Livello bibliografico | Monografia |
| | Note generali | "This edition applies to IBM Tivoli Storage Manager Version 5.3." |
| | | "June 2005." |
| | Nota di bibliografia | Includes bibliographical references and index. |
| | Sommario/riassunto | This IBM Redbooks publication is an easy-to-follow guide that describes how to implement IBM Tivoli Storage Manager Version 5.3 products in highly available clustered environments. The book is intended for those who want to plan, install, test, and manage the IBM Tivoli Storage Manager Version 5.3 in various environments by providing best practices and showing how to develop scripts for clustered environments. The book covers the following environments: IBM AIX HACMP, IBM Tivoli System Automation for Multiplatforms on Linux and AIX, MicrosoftCluster Server on Windows 2000 and Windows 2003, VERITAS Storage Foundation HA on AIX, and Windows Server 2003 Enterprise Edition. Please note that the additional material referenced in the text is not available from IBM. |
