American elections from Eisenhower to George W.Bush; Referendums and elections: how do campaigns differ?; Public opinion formation in Swiss federal referendums; Do political campaigns matter? Yes, but it depends; Bibliography; Index

Sommario/riassunto

This book, in bringing together some of the leading international scholars on electoral behaviour and communication studies, provides the first ever stock-take of the state of this sub-discipline. The individual chapters present the most recent studies on campaign effects in North America, Europe and Australasia. As a whole, the book provides a cross-national assessment of the theme of political campaigns and their consequences.
