Sommario/riassunto	<p>It was one of the biggest scandals in New York University history. Professor John Buettner-Janusch, chair of the Anthropology Department, was convicted of manufacturing LSD and Quaaludes in his campus laboratory. He claimed the drugs were for an animal behavior experiment, but the jury found otherwise. B-J, as he was known, served two years in prison before being paroled, emerging to find his life and career in shambles. Four years later, he sought revenge by trying to kill the sentencing judge and others with poisoned Valentine's Day chocolates. After pleading guilty to attempted murder, he w</p>

Sommario/riassunto	Cyril was bishop in Jerusalem from c350-351 AD until 386 AD. His writings are an important source for the history of early Christian doctrine. This book provides full English translations, with explanatory commentary, of his most important works. The introduction covers Cyril's life; his historical and archaeological context; his theology; and contemporary doctrine and practice. This will be essential reading for students and scholars of patristics, and those studying the history of the early Church and late antiquity.

Sommario/riassunto	Since publication of the initial version of <i>Plagues & Poxes</i> in 1987, which had the optimistic subtitle "The Rise and Fall of Epidemic Disease," the rise of new diseases such as AIDS and the deliberate modification and weaponization of diseases such as anthrax have changed the way we perceive infectious disease. With major modifications to deal with this new reality, the acclaimed author of <i>Civil War Medicine: Challenges and Triumphs</i> has updated and revised this

series of essays about changing disease patterns in history and some of the key events and people involved in them. It deals with th
