Sommario/riassunto	China's immersion in the world economy and trading system is a continued source of great interest throughout the globe. The book is

divided into three parts, the first being an overview of the Chinese investment environment and the development of foreign direct investment (FDI) over the last twenty years. The second part then goes on to focus specifically on the characteristics of European companies involved in FDI into China. The third part looks at different management aspects of EU invested enterprises within China, using newly acquired data. This comprehensive overview of European di

Sommario/riassunto	<p>This book takes a multidisciplinary approach to the question of esports and their role in society. A diverse group of authors tackle the impact of esports and the ways in which it has grown within the entertainment industry around the world.</p> <p>Chapters offer a coherent response to the following questions: What role do esports play in the entertainment industry? What communication skills can be learned through esports? What do the media gain from broadcasting esports? What is the relationship between social networks and esports? What are the main marketing strategies used in esports? What effect does communicative</p>

globalization have on the development of esports? What is the relationship between merchandising and esports? What do communication experts think about esports?

Offering clear insights into this rapidly developing area, this volume will be of great interest to scholars, students, and anyone working in game studies, new media, leisure, sport studies, communication studies, transmedia literacy, and digital culture.
