Sommario/riassunto	Language as Cultural Practice: Mexicanos en el Norte offers a vivid ethnographic account of language socialization practices within Mexican-background families residing in California and Texas. This account illustrates a variety of cases where language is used by speakers to choose between alternative self-definitions and where language interacts differentially with other defining categories, such as ethnicity, gender, and class. It shows that language socialization--instantiated in language choices and patterns of use in sociocultural and sociohistorical contexts characterized b
