Sommario/riassunto	Mentoring is used in a wide range of situations in education: to assist learning; to help weaker students or those with specific learning needs or difficulties; to develop community or business links; to aid the inclusion of pupils otherwise at risk of exclusion; to develop ethnic links; to enable students to benefit from the support of their peers, to name but a few. The development and proliferation of mentoring and

mentoring schemes in education over the last few years has been dramatic, and presents teachers, school managers and leaders, as well as mentors themselves with a challenge. T
