Descrizione fisica	1 online resource (415 p.)
Altri autori (Persone)	LeclercqMichel <1946-> ZimmermannPeter <1936->
Disciplina	616.8
Soggetti	Attention - Psychological aspects Neuropsychiatry - History Psychology, Pathological Clinical neuropsychology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.
Nota di contenuto	Part I. Theory -- Part II. Assessment and diagnosis -- Part III. Pathologies of attention -- Part IV. Rehabilitation.
Sommario/riassunto	The concept of attention in academic psychology has been treated with varying degrees of importance over the years. From playing a key role in the 19th century, it was discarded in the first half of the 20th century, as clinical psychologists claimed it was superfluous to the essential subconscious processes of the mind, and experimental psychologists thought it was not a scientific term. Applied Neuropsychology of Attention aims to review the considerable developments in the field of attention over the last 20 years as it makes its comeback. This collection of essays forms a compr
