Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Nota di bibliografia	Includes bibliographical references and index.
Sommario/riassunto	"This book traces twentieth-century Canadian criminal justice responses to women who kill their newly born babies. Initially, juries were reluctant to convict these women of murder since it carried the death penalty. The current "infanticide" law was adopted in 1948 to impose uniformity on legal practice and to ensure a homicide conviction. Even then, prosecutors faced considerable difficulties, but now, amidst media pressure, and with public attitudes possibly hardening, there are calls for the repeal of the infanticide law and the adoption of a draconian framework to deal with these cases."-- Amazon.com
