Sommario/riassunto

The ideology of Islamic fundamentalists is of central importance in the modern world, but it is often distorted or misunderstood by the international media. This insightful study provides a detailed analysis of the Palestinian Hamas movement's world-view, and shows how the theoretical framework developed by thinkers such as Hassan al-Banna, Sayyis Qutb and al-Mawdudi is applied to a specific political, social and economic context. Nusse explains the fundamentalist position on recent events, such as the Gulf War, the Madrid peace negotiations and the Hebron massacre, and helps to dissipate myth
