morbidity in an NHS context: a CBT approach -- Historical truths versus a sense of integrity: developing a frame of mind to enable letting go -- Depression: a case study -- Working with children: a communicative approach -- Substance abuse: treatment using personal construct psychology -- When things go the therapist's way: the case of Sarah -- Client case study: a first attempt at psychodynamic individual therapy -- How not to write a client report: discussing common errors a trainee makes.

Sommario/riassunto

Trainee therapists need to show practical competence through the production of client reports and case studies. Reporting in Counselling and Psychotherapy is a unique hands-on guide to this element of practical work. Using clinical examples to guide the reader, and a detailed analysis of case study and process report writing, it will show how to present clear, concise and properly presented reports. The book will be an invaluable tool, not only for those embarking on practical training in psychotherapy, counselling and psychology, but also for trainers in these areas and for clinician
