Sommario/riassunto	This book is unique as the only book on the Portuguese parliament in English. The Portuguese parliament is a valuable case study to understand the different stages of development of a newly democratic parliament. From Legislation to Legitimation shows that, as democracy developed, the role of the Portuguese parliament changed considerably. Whereas in the first years of democracy the Assembleia da Republica was centred on its legislative role, during the second decade its legitimation role expanded, making scrutiny parliament's main function.
