ideological bridge to the future; Wasps, warriors and fearless men: ethnoentomology of the Kayap Indians of Central Brazil; Hierarchy and utility in a folk biological taxonomic system: patterns in classification of arthropods by the Kayap Indians of Brazil; Additional notes on the classification and knowledge of stingless bees (Meliponinae, Apidae, Hymenoptera) by the Kayap Indians of Gorotire, Par, Brazil with Keeping of stingless bees by the Kayap Indians of Brazil; Ethnopharmacological search for antiviral compounds: treatment of gastrointestinal disorders by Kayap medical specialists with; Use of contraceptive and related plants by the Kayap Indians (Brazil) with; Kayap land management; Preliminary results on soil management techniques of the Kayap Indians with; Indigenous soil management in the Latin American tropics: some implications of ethnopedology for the Amazon Basin with; The keepers of the forest Indigenous management of tropical forest ecosystems: the case of the Kayap Indians of the Brazilian Amazon; The continuum of Kayap resource management; Continuing adaptation by the Kayap; From warclubs to words; The Kayap Indian protests against Amazonian dams: successes, alliances, and unending battles; Appendix: management of a tropical scrub savanna by the Gorotire Kayap of Brazil; Notes; Glossary; Bibliography; Index

Sommario/riassunto

Darrell A Posey died in March 2001 after a long and distinguished career in anthropology and ecology. *Kayapo Ethnoecology and Culture* presents a selection of his writings that result from 25 years of work with the Kayapo Indians of the Amazon Basin. These writings describe the dispersal of the Kayapo sub-groups and explain how with this diaspora useful biological species and natural resource management strategies also spread. However the Kayapo are threatened with extinction like many of the inhabitants of the Amazon basin. The author is adamant that it is no longer satisfactory for s
