Sommario/riassunto	Managing, working, and living in this information-rich and rapidly changing environment present major challenges. This e-book focuses on issues related to challenges presented by and the effectiveness of virtual work, teams and organizations. A range of issues are explored including: comparisons between collocated and virtual teams; the influence of various communication media on the task performance perception of virtual teams; global boundaries, Task Processes and Information systems project success; and the role of trust in virtual teamworking practices.
