1. Record Nr. UNINA9910783922903321

Autore	Ma Tian <1956->
Titolo	Bifurcation theory and applications [[electronic resource] /] / Tian Ma, Shouhong Wang
Pubbl/distr/stampa	Singapore ; ; London, : World Scientific, c2005
ISBN	1-281-89691-8 9786611896911 981-270-115-X
Descrizione fisica	1 online resource (391 p.)
Collana	World Scientific series on nonlinear science. Series A ; ; v. 53
Altri autori (Persone)	WangShouhong <1962->
Disciplina	515.392
Soggetti	Bifurcation theory Differential equations, Nonlinear - Numerical solutions
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Preface; Contents; Chapter 1 Introduction to Steady State Bifurcation Theory; Chapter 2 Introduction to Dynamic Bifurcation; Chapter 3 Reduction Procedures and Stability; Chapter 4 Steady State Bifurcations; Chapter 5 Dynamic Bifurcation Theory: Finite Dimensional Case; Chapter 6 Dynamic Bifurcation Theory: Infinite Dimensional Case; Chapter 7 Bifurcations for Nonlinear Elliptic Equations; Chapter 8 Reaction-Diffusion Equations; Chapter 9 Pattern Formation and Wave Equations; Chapter 10 Fluid Dynamics; Bibliography; Index
Sommario/riassunto	This book covers comprehensive bifurcation theory and its applications to dynamical systems and partial differential equations (PDEs) from science and engineering, including in particular PDEs from physics, chemistry, biology, and hydrodynamics. The book first introduces bifurcation theories recently developed by the authors, on steady state bifurcation for a class of nonlinear problems with even order nondegenerate nonlinearities, regardless of the multiplicity of the eigenvalues, and on attractor bifurcations for nonlinear evolution equations, a new notion of bifurcation. With this new notio
