Sommario/riassunto	Nietzsche and the Dionysian argues that the shuddering mania of the affect associated with Dionysus in Nietzsche's early work runs as a thread through his thought and is linked to an originary interruption of self-consciousness articulated by the philosophical companion. In this capacity, the companion can be considered a 'mask of Dionysus', or one who assumes the singular role of the transmitter of the most valuable affirmative affect and initiates a compulsion to respond which incorporates the otherness of the companion. In the context of such engagements, Nietzsche envisages 'Dionysian' or divine 'madness' within an optics of life, through which an affirmative ethics can be thought. The ethical response to the philosophical companion requires an affirmation of the plurality of life, formulated in the imperatives to be 'true to the earth' and 'become who you are'. Such an ethics, compelled by the Dionysian affect, grounds any future for humanity in the affirmation of the earth and life.

Sommario/riassunto	Presenting a detailed explanation of party politics in the European Union, this new book uses the Party of European Socialists (PES) as a key case study, and tests the relevance of existing theoretical work on the meaning, significance, and prospects for realising other 'Europarties'. This analysis operates from the assumption that the PES's main goal is to influence the outcome of EU public policy, rather than the more traditional party goals of vote maximisation or office seeking. Secondly, by subjecting the PES to careful scrutiny in two specific policy areas (employment an
