Nota di bibliografia Includes bibliographical references (p. [165]-178) and index. Nota di contenuto Book Cover; Title; Copyright; Contents Sommario/riassunto Financial organizations, like many others, are undergoing radical change. This is affecting both their organizational processes and the technology that supports those processes. This book reports on the use of sociological ethnography in helping guide these changes, both in terms of helping better understanding and redraw work processes

and through providing more accurate and flexible understanding of the role technology plays. It places the reported research in context by contrasting it with those approaches more commonly associated with

change, including business process engineering, partici
