

1. Record Nr.	UNINA9910784002403321
Autore	Carlstedt Thomas
Titolo	Central nerve plexus injury [[electronic resource] /] / Thomas Carlstedt
Pubbl/distr/stampa	London, : Imperial College Press Hackensack, NJ, : Distributed by World Scientific Pub., c2007
ISBN	1-281-12050-2 9786611120504 1-86094-870-7
Descrizione fisica	1 online resource (191 p.)
Disciplina	617.482059
Soggetti	Central nervous system - Wounds and injuries Nervous system - Wounds and injuries
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Contents; 1. Introduction; 2. The Intraspinal Plexus Injury and Its Natural History; 3. Surgical Anatomy; 4. Assessment of Patients with Intraspinal Plexus Injuries; 5. Palliative Peripheral Nerve Procedures for Spinal Root Injuries; 6. Basic Science of Experimental Root Injuries; 7. Surgical Exposures and Repairs; 8. Outcome; 9. Conclusion; Index
Sommario/riassunto	This unique volume presents the first successful surgical strategy to repair the spinal root and the associated spinal cord injury that follows from severe traction injuries to the brachial and lumbosacral nerve plexus. The basic science background to this novel surgical technique is described, and the contemporary palliative procedures as well as clinical and ancillary assessments are given together with a meticulous description of the functional outcome of the surgery. Covering the research that led to the author's pioneering application of this surgical technique to the clinical human situa
