Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Introducing the white democracy -- A political theory of race -- The problem of the white citizen -- The peculiar dilemma of whiteness -- The failure of multiculturalism and color blindness -- The abolition-democracy.
Sommario/riassunto	Joel Olson contends that, given the history of slavery and segregation in the United States, American citizenship is a form of racial privilege in which whites are equal to each other but superior to everyone else. To break this pattern, Olson suggests an "abolitionist-democratic" political theory that makes the fight against racial discrimination a prerequisite for expanding democratic participation.
