

1. Record Nr.	UNINA9910784146003321
Titolo	Radiation inactivation of bioterrorism agents [[electronic resource] /] / edited by L.G. Gazso and C.C. Ponta
Pubbl/distr/stampa	Amsterdam ; ; Oxford, : IOS Press, c2005
ISBN	1-280-50477-3 9786610504770 1-4294-0240-7 1-60750-109-0 600-00-0533-4 1-60129-090-X
Descrizione fisica	1 online resource (216 p.)
Collana	NATO science series. Series I, Life and behavioural sciences, , 1566-7693 ; ; v. 365
Altri autori (Persone)	GazsoL. G PontaC. C (Corneliu C.)
Disciplina	660.2982
Soggetti	Biological weapons - Effect of radiation on Radiation sterilization
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	"Proceedings of the NATO Advanced Research Workshop on Radiation Inactivation of Bioterrorism Agents, 7-9 March 2004, Budapest, Hungary"--t.p. verso.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Title page; Foreword; Contents; Radiation Technology for New Materials Development, Human Health and Environment Protection; Radiation Safety Principles and Requirements at Gamma- and Electron Irradiation Facilities; Dosimetry Systems for Radiation Processing; Process Control of Radiation Treatment; Dose Setting Procedures for Radiation Sterilization; Radiation Chemistry and Its Application to Radiation Technology; Physical, Chemical and Biological Dose Modifying Factors; Radiation Technology in the Mediterranean Dialogue Countries Chemical, Biological, Radiological and Nuclear Terrorism: New Challenge for Protection and Crisis Management Preventing is better than Postfactum Intervention in Bioterrorism; Potential Agents for Biological Weapons; Deployable (Molecular) Biological Laboratory: Concept & Reality; Irradiation Decontamination of Postal Mail and High-

Risk Luggage; Research Directions at State Research Center of Virology and Biotechnology VECTOR. International Collaboration is an Efficient Option for Infectious Disease Control and Combating Bioterrorism; Differential PCR Diagnostic of Orthopoxviruses
Inactivation of Bio-Terrorism Agents in Military and Domestic Applications
Inactivation of Biological Warfare Agent Simulants by Ionizing Radiation; Inactivation of Biological Threat Agents with Nonionizing Radiation; Ionizing Radiation Inactivation of Medically Relevant Viruses; Detection and Prevention of Bioterrorism Agents - Portuguese Case Studies; Foodborne Agents and Bioterrorism Prevention - A Portuguese Case Study on Ionizing Irradiation; Author Index

Sommario/riassunto

This volume is the product of the NATO Advanced Research Workshop on Radiation Inactivation of Bioterrorism Agents, held in March 2004 in Budapest, Hungary. Gacs (National Center for Public Health, National Research Institute for Radiobiology and Radiohygiene, Hungary) and Ponta ("Horia Hulubei" National Institute for Physics and Engineering, Roman
