Sommario/riassunto

This rich collection of articles dedicated to Michael E. Stone by his colleagues and students honors his contributions to the study of Judaism and Christianity. Many of the articles discuss apocryphal and pseudepigraphical works stemming from Jewish or Christian authors and transmitted primarily but not exclusively by Christian scribes. Particularly well-represented are the earliest books of 1 Enoch and the Testaments of the Twelve Patriarchs. A number of articles introduce newly available material from the Dead Sea Scrolls while others deal with Philo, Hellenistic Judaism, and early Christianity. Issues of biblical interpretation, tradition-history, literary transmission, and social context figure prominently. This book is a companion to the study of apocrypha, pseudepigrapha, Dead Sea Scrolls, early Judaism, and early Christianity.
