Sommario/riassunto	All In a Day's Work will help you give students an exciting and varied look into the future, and the role played by an education in the sciences as a foundation for some of the world's most fascinating jobs. The book is a compendium of more than 30 of the popular "Career of the Month" columns from the NSTA high school member journal The Science Teacher. Each column profiles people in science-related jobs and is designed to be reproduced and shared with your high school students as they formulate future career and education plans.
