

1. Record Nr.	UNINA9910462398203321
Titolo	ABC of HIV and AIDS [[electronic resource] /] / edited by Michael W. Adler ... [et al.]
Pubbl/distr/stampa	Chichester, West Sussex [England], : Blackwell Pub., 2012
ISBN	1-78402-103-2 1-118-42580-4
Edizione	[6th ed.]
Descrizione fisica	1 online resource (148 p.)
Collana	ABC series
Altri autori (Persone)	AdlerMichael W
Disciplina	616.97/92
Soggetti	AIDS (Disease) HIV infections Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Rev. ed. of: ABC of AIDS / edited by Michael W. Adler. 5th ed. 2001.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Development of the epidemic / Binta Sultan and Michael W. Adler -- Immunology of HIV1 infection / Mahdad Noursadeghi and Deenan Pillay -- Viral assays used in the diagnosis and management of HIV infection / Anna Maria Geretti and Paola Vitiello -- HIV testing: strategies to prevent late diagnosis / Adrian Palfreeman and Emma Fox -- Clinical staging and natural history of untreated HIV infection / Melinda Tenant-Flowers and Adrian Mindel -- Routine assessment and follow-up of the newly diagnosed HIV-positive individual / Laura Waters and David Asboe -- Tumours in HIV / Mark Bower -- The lung and HIV / Sarah Doffman and Robert F. Miller -- HIV and tuberculosis co-infection / Felicity Perrin, Ronan Breen, and Marc Lipman -- The gut and HIV / Brian Gazzard and Mark Nelson -- Viral hepatitis and liver disease / Richard Gilson and Huw Price -- Neurological manifestations / Hadi Manji and Robert F. Miller -- The eye and HIV / Christine Younan, William Lynn, and Sue Lightman -- The skin and HIV / Rachael Morris-Jones and Elisabeth Higgins -- The kidney and HIV / John Booth and John Connelly -- STIs and HIV / Patrick French -- Women and HIV / Chris Wilkinson and Danielle Mercey -- HIV infection in children / Paddy McMaster and Suzy Stokes -- Antiretroviral drugs / Paul Benn, Gulshan Sethi, and Ian G. Williams -- Pharmacopoeia of treatments / June Minton, Gulshan Sethi, and Simon G. Edwards -- Psychological and

mental health issues / Barbara Hedge -- Strategies for preventing HIV transmission / John Imrie and Graham J. Hart -- Patient and community perspective / Garry Brough and Namatovu Lubega -- The role of patient engagement / Christopher Sandford.

Sommario/riassunto

An authoritative guide to the epidemiology, incidence, testing and diagnosis and management of HIV and AIDS. From an international expert editor and contributor team, this new sixth edition includes expanded coverage of HIV testing, assessment and routine follow up and new chapters outlining problematic conditions associated with HIV and AIDS. Prevention strategies, early diagnosis and antiretroviral drugs and pharmacotherapy are covered in detail as well as children and women with HIV. It also addresses key psychological and mental health issues, patient perspectives and the role of

Nota di bibliografia

Includes bibliographical references (p. 301-315) and index.

Nota di contenuto

Initial tasks and overview ; Univariate time series analysis ; Vector autoregressive and vector error correction models / Helmut Lutkepohl -- Structural vector autoregressive modeling and impulse responses / Jorg Breitung, Ralf Brueggemann, and Helmut Lutkepohl -- Conditional heteroskedasticity / Helmut Herwartz -- Smooth transition regression modeling / Timo Terasvirta -- Nonparametric time series modeling / Rolf Tschernig -- The software JMULTi / Markus Kratzig.

Sommario/riassunto

Time series econometrics is a rapidly evolving field. Particularly, the cointegration revolution has had a substantial impact on applied analysis. Hence, no textbook has managed to cover the full range of methods in current use and explain how to proceed in applied domains. This gap in the literature motivates the present volume. The methods are sketched out, reminding the reader of the ideas underlying them and giving sufficient background for empirical work. The treatment can also be used as a textbook for a course on applied time series econometrics. Topics include: unit root and cointegration analysis, structural vector autoregressions, conditional heteroskedasticity and nonlinear and nonparametric time series models. Crucial to empirical work is the software that is available for analysis. New methodology is typically only gradually incorporated into existing software packages. Therefore a flexible Java interface has been created, allowing readers to replicate the applications and conduct their own analyses.
