

1. Record Nr.	UNINA9910784331703321
Autore	Anderson Don L.
Titolo	New theory of the Earth // Don L. Anderson [[electronic resource]]
Pubbl/distr/stampa	Cambridge : , : Cambridge University Press, , 2007
ISBN	1-107-16487-7 1-139-16729-4 0-511-27293-6 0-511-64909-6 0-511-56801-0 0-511-27372-X
Edizione	[Second edition.]
Descrizione fisica	1 online resource (xv, 384 pages) : digital, PDF file(s)
Altri autori (Persone)	AndersonDon L
Disciplina	551.1/1
Soggetti	Earth sciences
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from publisher's bibliographic system (viewed on 05 Oct 2015).
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Planetary perspective -- Earth : the dynamic planet -- Radial and lateral structure -- Sampling the Earth -- Mineral physics -- Origin and evolution of the layers and blobs -- Energetics.
Sommario/riassunto	Theory of the Earth is an interdisciplinary advanced textbook on the origin, composition, and evolution of the Earth's interior: geophysics, geochemistry, dynamics, convection, mineralogy, volcanism, energetics and thermal history. This is the only book on the whole landscape of deep Earth processes which ties together all the strands of the subdisciplines. It is a complete update of Anderson's Theory of the Earth (1989). It includes many new sections and dozens of new figures and tables. As with the original book, this new edition will prove to be a stimulating textbook on advanced courses in geophysics, geochemistry, and planetary science, and supplementary textbook on a wide range of other advanced Earth science courses. It will also be an essential reference and resource for all researchers in the solid Earth sciences.
