Note generali	Title from publisher's bibliographic system (viewed on 05 Oct 2015).
Nota di bibliografia	Includes bibliographical references (p. 214-240) and index.
Sommario/riassunto	Since the Armistice, a vast literature has been produced on the First World War and its repercussions. In this 2005 book, two leading historians from the United States and France have produced a fully comparative analysis of the ways in which this history has been written and interpreted. The book identifies three generations of historians, literary scholars, film directors and writers who have commented upon the war. Through a thematic structure, it assesses not only diplomatic and military studies but also the social and cultural interpretations of the Great War as seen primarily through the eyes of French, German and British writers. It provides a fascinating case study of the practice of history in the twentieth century and of the enduring importance of the national lens in shaping historical narrative. This interesting study will prove invaluable reading to scholars and students in history, war studies, European history and international relations.

Sommario/riassunto	With the occurrence of the US crisis, international focus has shifted from finance to financial stability. This book offers analyses of financial stability risk assessment at three main levels - namely international financial markets, banks and international trade - with the research being innovative, timely and much needed in terms of policy implications. New approaches to policy-making are also suggested to deal with the three crises that presently buffet the world: the debt crisis, an agei...

Sommario/riassunto	Destined to become the standard guide to the economic policy of the United States during the Reagan era, this book provides an authoritative record of the economic reforms of the 1980's. In his introduction, Martin Feldstein provides compelling analysis of policies with which he was closely involved as chairman of the Council of Economic Advisers during the Reagan administration: monetary and exchange rate policy, tax policy, and budget issues. Other leading economists and policymakers examine a variety of domestic and international issues, including monetary and exchange rate policy, regulation and antitrust, as well as trade, tax, and budget policies. The contributors to this volume are Alberto Alesina, Phillip Areeda,

Elizabeth Bailey, William F. Baxter, C. Fred Bergsten, James Burnley, Geoffrey Carliner, Christopher DeMuth, Douglas W. Elmendorf, Thomas O. Enders, Martin Feldstein, Jeffrey A. Frankel, Don Fullerton, William M. Isaac, Paul L Joskow, Paul Krugman, Robert E. Litan, Russell B. Long, Michael Mussa, William A. Niskanen, Roger G. Noll, Lionel H.
