Descrizione fisica	1 online resource (xi, 452 pages) : digital, PDF file(s)
Disciplina	621.3815
Soggetti	Electronic circuits Electromagnetic compatibility Digital integrated circuits Linear integrated circuits Electromagnetism
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from publisher's bibliographic system (viewed on 05 Oct 2015).
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Cover; Half-title; Title; Copyright; Contents; Preface; Acknowledgments; 1 Introduction; 2 Capacitance; 3 Resistance; 4 Ampere, Faraday, and Maxwell; 5 Inductance; 6 Passive device design and layout; 7 Resonance and impedance matching; 8 Small-signal high-speed amplifiers; 9 Transmission lines; 10 Transformers; 11 Distributed circuits; 12 High-speed switching circuits; 13 Magnetic and electrical coupling and isolation; 14 Electromagnetic propagation and radiation; 15 Microwave circuits; References; Index

Modern communications technology demands smaller, faster and more efficient circuits. This book reviews the fundamentals of electromagnetism in passive and active circuit elements, highlighting various effects and potential problems in designing a new circuit. The author begins with a review of the basics - the origin of resistance, capacitance, and inductance - then progresses to more advanced topics such as passive device design and layout, resonant circuits, impedance matching, high-speed switching circuits, and parasitic coupling and isolation techniques. Using examples and applications in RF and microwave systems, the author describes transmission lines, transformers, and distributed circuits. State-of-the-art developments in Si based broadband analog, RF, microwave, and mm-wave circuits are reviewed. With up-to-date results, techniques, practical examples, illustrations and worked examples, this book will be valuable to advanced undergraduate and graduate students of electrical engineering, and practitioners in the IC design industry.
