Sommario/riassunto	Offers a fascinating landscape history of this six county region in east-central Minnesota, including detailed descriptions of the 39 varieties of native habitats which still exist there. The region includes the counties of Anoka, Chisago, Isanti, Ramsey, Sherburne, and Washington. All of the data is summarized and interpreted to provide a convenient guide for anyone interested in the natural history of the region, including landowners seeking more information on a forest or prairie on their land, persons interested in visiting native habitats in the region, government planners and resource ma
