

1. Record Nr.	UNINA9910784387203321
Titolo	Emerging infectious diseases [[electronic resource] ] : trends and issues // [edited by] Felissa R. Lashley, Jerry D. Durham
Pubbl/distr/stampa	New York, : Springer Pub. Co., c2007
ISBN	1-280-82352-6 9786610823529 0-8261-0350-2
Edizione	[2nd ed.]
Descrizione fisica	1 online resource (611 p.)
Altri autori (Persone)	LashleyFelissa R. <1941-> DurhamJerry D
Disciplina	616.9
Soggetti	Emerging infectious diseases Drug resistance in microorganisms Epidemiology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Background. An introduction to emerging and reemerging infectious diseases ; Microbial resistance to antibiotics ; Categories and highlights of significant current emerging infectious diseases -- Specific diseases. Cholera ; Cryptosporidiosis ; Cyclospora cayetanensis : arrive via Guatemalan raspberries ; Dengue fever ; Ebola, Marburg, lassa, and other hemorrhagic fevers ; Escherichia coli 0157:H7 ; Emerging fungal infections ; Hantavirus pulmonary syndrome ; Hepatitis C ; HIV/AIDS ; Avian influenzas A (H5N1) ; Legionellosis : legionnaires disease and pontiac fever ; Lyme disease, ehrlichiosis, anaplasmosis, and babesiosis ; Malaria ; Metapneumovirus ; Monkeypox and other emerging othopoxvirus infections ; multidrug-resistant tuberculosis ; Prion diseases : Creutzfeldt-Jakob disease and other transmissible spongiform encephalopathies ; SARS : from zoonosis to pandemic threat ; West Nile virus -- Special considerations. The role on infection in some cancers and chronic diseases ; Travel, recreation, and emerging infectious diseases ; Immunocompromised persons and emerging infectious diseases ; Bioterrorism in the context of infectious diseases ; Behavioral and cultural aspects of transmission and infection

; Into the future -- Appendices. Emerging/reemerging infectious diseases by organism ; Emerging/reemerging infectious diseases by modes of transmission ; Prevention of emerging/reemerging infectious diseases ; Selected resources.

---

Sommario/riassunto

Provides information about the epidemiology, clinical manifestations, prevention, and treatment of specific EIDs. This book emphasizes issues of most relevance to our world, including the EIDs like avian influenza and SARS, special issues like bioterrorism, related behavioral and cultural factors, and infectious etiologies of chronic diseases.
