

1. Record Nr.	UNINA9910784422803321
Autore	Klein Herbert S.
Titolo	A population history of the United States / / Herbert S. Klein [[electronic resource]]
Pubbl/distr/stampa	Cambridge : , : Cambridge University Press, , 2004
ISBN	1-107-14332-2 1-280-45823-2 0-511-61663-5 0-511-18594-4 0-511-18511-1 0-511-18778-5 0-511-30283-5 0-511-18685-1
Descrizione fisica	1 online resource (xvi, 300 pages) : digital, PDF file(s)
Disciplina	304.6/0973
Soggetti	United States Population History
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Title from publisher's bibliographic system (viewed on 05 Oct 2015).
Nota di bibliografia	Includes bibliographical references (p. 267-285) and index.
Nota di contenuto	Graphs, maps, and tables -- Introduction -- ; 1. Paleo-Indians, Europeans, and the settlement of America -- ; 2. Colonization and settlement of North America -- ; 3. The early Republic to 1860 -- ; 4. The creation of an industrial and urban society, 1860-1914 -- ; 5. The evolution of a modern population, 1914-145 -- ; 6. The baby boom and changing family values, 1945-1980 -- ; 7. A modern industrial society, 1980-2003 -- Appendix tables, graphs, and maps -- Bibliography -- Index.
Sommario/riassunto	This is the first full-scale one-volume survey of the demographic history of the United States. From the arrival of humans in the Western Hemisphere to the current century, Klein analyzes the basic demographic trends in the growth of the pre-conquest, colonial and national populations. He surveys the origin and distribution of the Native Americans, the post-conquest free and servile European and African colonial populations and the variation in regional patterns of fertility and mortality to 1800. He then explores trends in births,

deaths, international and internal migrations in the nineteenth century and compares them with contemporary European developments. The profound impact of historic declines in disease and mortality on the structure of the late twentieth century population is explained. Finally the late twentieth century changes in family structure, fertility and mortality are evaluated for their influence on the evolution of the national population for the 21st century.
