Sommario/riassunto	Critically exploring the ways in which men and masculinities are commonly theorized, this multidisciplinary text opens up a discussion around such relationships, and shows that, as with feminisms, there is a diversity of theoretical traditions. It draws on a variety of examples, and explores new directions in the complexities of diverse male identities and emotional lives across different histories, cultures and

traditions. This book: considers the experiences of different
generations explores connections between masculinity and
drugs investigates men and m
