Sommario/riassunto	As the Muslim population in the United States continues to grow, Islamic schools are springing up across the nation's landscape.

Education, both secular and religious, has always been of the greatest importance to the Muslim community in America. Muslims have made it clear that they want their children to have the best education possible at the same time that they are learning the essentials of their faith. Especially since the events of September 11th, many Americans have become concerned about the teaching going on behind the walls of these schools. The essays collected in this volume look b

#### Sommario/riassunto

Evolutionary thinking has expanded in the last decades, spreading from its traditional stronghold - the explanation of speciation and adaptation in biology - to new domains. Fascinating pieces of work, the essays in this collection attest to the illuminating power of evolutionary thinking when applied to the understanding of the human mind. The contributors to *Cognition, Evolution and Rationality* use an evolutionary standpoint to approach the nature of the human mind, including both cognitive and behavioural functions. Cognitive science is by its nature an interdisciplinary s
