Sommario/riassunto

European Cinemas in the Television Age is a radical attempt to rethink the post-war history of European cinemas. The authors approach the subject from the perspective of television's impact on the culture of cinema's production, distribution, consumption and reception. Thus they indicate a new direction for the debate about the future of cinema in Europe. In every European country television has transformed economic, technological and aesthetic terms in which the process of cinema production had been conducted. Television's growing popularity has drastically reshaped cinema's audiences and for
