Sommario/riassunto

This book provides a snapshot of the latest theoretical and empirical work on social psychological approaches to stigma and group inequality. It focuses on the perspective of the stigmatized groups and discusses the effects of the stigma on the individual, the interacting partners, the groups to which they belong, and the relations between the groups. Broken into three major sections, Stigma and Group Inequality: *discusses the tradeoffs that stigmatized individuals must contend with as they weigh the benefits derived from a particular response to stigma against the costs asso
