Mayer, Timothy Werner, and Amanda Williams -- State campaign finance reform, competitiveness, and party advantage in gubernatorial elections / David M. Primo, Jeffrey Milyo, and Tim Groseclose -- The perfect electoral marketplace : "If men were angels..." / Michael P. McDonald and John

Samples.

Sommario/riassunto

Since 1998, U.S. House incumbents have won a staggering 98 percent of their reelection races. Electoral competition is also low and in decline in most state and primary elections. The Marketplace of Democracy combines the resources of two eminent research organizations-the Brookings Institution and the Cato Institute-to address the startling lack of competition in our democratic system.
