

1. Record Nr.	UNINA9910784539203321
Titolo	Handbook of categorization in cognitive science [[electronic resource] /] / edited by Henri Cohen, Claire Lefebvre
Pubbl/distr/stampa	Amsterdam, : Elsevier, 2005
ISBN	1-280-63018-3 9786610630189 0-08-045741-X
Descrizione fisica	1 online resource (1136 p.)
Classificazione	17.13
Altri autori (Persone)	CohenHenri <1945-> LefebvreClaire
Disciplina	153.012
Soggetti	Categorization (Psychology) Cognitive science
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Cover; Handbook of Categorization in Cognitive Science; Preface; Table of Contents; List of Contributors; Bridging the Category Divide; Part 1 - Categorization in Cognitive Science; Part 2 - Semantic Categories; Part 3 - Syntactic Categories; Part 4 - Acquisition of Categories; Part 5 - Neuroscience of Categorization and Category Learning; Part 6 - Categories in Perception and Inference; Part 7 - Grounding, Recognition, and Reasoning in Categorization; Part 8 - Machine Category Learning; Part 9 - Data Mining for Categories and Ontologies; Part 10 - The Naturalization of Categories; Index
Sommario/riassunto	Categorization, the basic cognitive process of arranging objects into categories, is a fundamental process in human and machine intelligence and is central to investigations and research in cognitive science. Until now, categorization has been approached from singular disciplinary perspectives with little overlap or communication between the disciplines involved (Linguistics, Psychology, Philosophy, Neuroscience, Computer Science, Cognitive Anthropology). Henri Cohen and Claire Lefebvre have gathered together a stellar collection of contributors in this unique, ambitious attempt to bring toget
