

1. Record Nr.	UNINA9910784545703321
Titolo	Improving stability in developing nations through automation 2006 [[electronic resource]] : a proceedings volume from the IFAC Conference on Supplemental Ways for Improving International Stability through Automation ISA '06, 15-17 June 2006, Prishtina, Kosovo // edited by P. Kopacek
Pubbl/distr/stampa	Oxford, : Elsevier for International Federation of Automatic Control, 2006
ISBN	1-280-74678-5 9786610746781 0-08-046764-4
Descrizione fisica	1 online resource (127 p.)
Collana	IPV - IFAC Proceedings Volume
Altri autori (Persone)	KopacekPeter
Disciplina	629.8
Soggetti	Automatic control Technology - Social aspects - Developing countries
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Cover; Copyright Page; Table of Contents; Survey Papers; Mechatronics Education and International Stability - The Development Of University- Level Education Programmes in Advanced Engineering in Kosovo; Abstract; 1. Background and Context; 2. Mechatronics & Engineering Management; 3. Engineering Management Education & Mechatronics Management; 4. Developing a Kosovan Mechatronics Management Programme; 5. Curriculum Design: Theoretical Approach; 4. Summary; 6. Conclusion; Acknowledgements; References; Terrorism, Human Rights and Ethics: A Modelling Approach; Abstract 1. Introduction: What Is 'Terrorism'?2. Context for Terrorism; 3. Ethical Analysis; 4. The Ethics of Counter Terrorism; 5. Human Rights and the Fear of Terrorism; 5. Conclusions; References; Acknowledgements; Energy Providing and Consumption Can Cause Instability; Abstract; 1. Introduction; 2. Control (Systems) Engineering and Conflict Solution; 3. Energy Production and Consumption in the World; 4. Modelling; 5. Discussion; 6. Conclusion; 7. References; Mechatronics; A Role of Mechanical Engineering in Mechatronics; Abstract; 1. Mechatronic

Systems and Mechatronics; 2. Mechanical Issues
3. Experiences at University of Cassino
4. Conclusions; References; A
Mechatronics Management Laboratory; Abstract; 1. Introduction; 2
Equipment; 3. Organisation for Effective, Active Learning; 4. Summary
and Outlook; 5. Acknowledgement; 6. Literature; Various; Social
Stability in a Stressed Ecosystem; Abstract; 1. Introduction; 2.
Ecological Decline; 3. Challenges to Social Stability; 4.
Underemployment and Stress on Existing Social Paradigms; 5. A New
Social Paradigm; 6. Views of Human Society; 7. Social Determinants; 8.
Representative Approaches to Global Stability
9. Conditions for Sustainable Stability
References; Critical Infrastructure;
Abstract; 1. Introduction; 2. Critical Infrastructure; 3. Security; 4.
Dependability; 5. Conclusion; References; Decision Making in TOC-
Product-Mix Selection Via Fuzzy Cost Function Optimization; Abstract;
1. Introduction; 2. A Fuzzy System Approach to Toc Product-Mix
Problem; 3. Conclusions; References; Learnmaths: A Case Study of the
Development of Learning Software to Support Social Inclusion; Abstract;
1. Background and Context; 2. Learning Disability in Mathematics; 3.
The Need for Education Support Solutions
4. The Learnmaths Assitive Technology Solution
5. Conclusions;
References; Current Ethical Scruples Concerning Information
Engineering; Abstract; 1. Introduction; 2. Privacy and Security, Two
Dramas of Our Days; 3. Privacy and Security Means Liberty and
Solidarity with all their Coherence and Contradictions; 4. Who Guards
the Guards? - Feedback of Enlightened Democracy; 5. Advances in
Conflict Resolution; 6. Strong Ethics of a Sceptic View; 7. Hungarian
Situation and Some about Our Group's Activity; 8. Conclusion and
Warning
Complexity of Social System Cybernetics: Risk and Uncertainty
Management in Negotiations

Sommario/riassunto

Technological development has caused profound changes and social stability. Regions which have had stable populations for centuries have experienced enormous population growth leading to the emergence of sometimes unmanageable megaplex cities as well as bringing about macroscopic environmental change. The scope of this IFAC SWIIS Conference is to offer insights into mitigating unwanted side-effects of rapid development and to share methodologies for appropriate ways of managing the introduction of technologies which will alter social stability. Contributions included in this volume cover a
