

1. Record Nr.	UNINA9910784558103321
Autore	Leontief Wassily <1906-1999, >
Titolo	Input-output economics / / Wassily Leontief
Pubbl/distr/stampa	New York ; ; Oxford, England : , : Oxford University Press, , 1986 ©1986
ISBN	1-280-43920-3 0-19-536522-4 1-4237-5835-8 1-60129-581-2
Edizione	[Second edition.]
Descrizione fisica	1 online resource (xii, 436 p.) : ill. ;
Disciplina	339.2/3
Soggetti	Input-output analysis Input-output tables - United States
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Intro -- Contents -- 1 Input-Output Economics (1951) -- 2 Input-Output Analysis (1985) -- 3 An Alternative to Aggregation in Input-Output Analysis and National Accounts (1967) -- 4 Wages, Profits, Prices, and Taxes (1947) -- 5 Domestic Production and Foreign Trade: The American Capital Position Reexamined (1953) -- 6 Factor Proportions and the Structure of American Trade: Further Theoretical and Empirical Analysis (1956) -- 7 Multiregional Input-Output Analysis (1963) -- 8 The Structure of Development (1963) -- 9 The Economic Effects of Disarmament (1961) -- 10 The Economic Impact-Industrial and Regional-of an Arms Cut (1965) -- 11 Environmental Repercussions and the Economic Structure: An Input-Output Approach (1970) -- 12 National Income, Economic Structure, and Environmental Externalities (1973) -- 13 Air Pollution and the Economic Structure: Empirical Results of Input-Output Computations (1972) -- 14 The Dynamic Inverse (1970) -- 15 Structure of the World Economy: Outline of a Simple Input-Output Formulation (1974) -- 16 Population Growth and Economic Development: Illustrative Projections (1979) -- 17 The Distribution of Work and Income (1982) -- 18 The Growth of Maritime Traffic and the Future of World Ports (1979) -- 19 Technological

Change, Prices, Wages, and Rates of Return on Capital in the U.S. Economy (1985) -- 20 An Information System for Policy Decisions in a Modern Economy (1979) -- Index.

Sommario/riassunto

This collection of writings provides the only comprehensive introduction to the input-output model for which Leontief was awarded the Nobel Prize in 1973. The structural approach to economics developed by Leontief, and known as input-output analysis, paved the way for the transformation of economics into a truly empirical discipline that could utilize modern data processing technology. This thoroughly revised second edition includes twenty essays--twelve of which are new to this edition--that reflect the past developments and the present state of the field. Beginning with an introductory chapter, the book leads the reader into an understanding of the input-output approach--not only as formal theory but also as a research strategy and powerful tool for dealing with a complex modern economy.
