

1. Record Nr.	UNINA9910784692303321
Titolo	Handbook of health research methods : investigation, measurement and analysis / / edited by Ann Bowling and Shah Ebrahim
Pubbl/distr/stampa	Maidenhead : , : Open University Press/McGraw-Hill Education, , 2005 ©2005
ISBN	1-280-95086-2 0-335-22436-9
Descrizione fisica	1 online resource (xii, 625 pages) : illustrations
Disciplina	362.1072 610.72
Soggetti	Medical care - Research Public health - Research Health - Research - Methodology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Sommario/riassunto	This handbook helps researchers to plan, carry out, and analyse health research, and evaluate the quality of research studies. The book takes a multidisciplinary approach to enable researchers from different disciplines to work side-by-side in the investigation of population health, the evaluation of health care, and in health care delivery. Handbook of Health Research Methods is an essential tool for researchers and postgraduate students taking masters courses, or undertaking doctoral programmes, in health services evaluation, health sciences, health management, public health, nursing, sociology, socio-biology, medicine and epidemiology. However, the book also appeals to health professionals who wish to broaden their knowledge of research methods in order to make effective policy and practice decisions.
