

1. Record Nr.	UNINA9910784698603321
Titolo	Environmental epidemiology [[electronic resource] /] / edited by Paul Wilkinson
Pubbl/distr/stampa	Maidenhead ; ; New York, : Open University Press, 2006
ISBN	1-280-94853-1 9786610948536 0-335-22841-0
Descrizione fisica	1 online resource (233 p.)
Collana	Understanding public health
Altri autori (Persone)	WilkinsonPaul, Dr.
Disciplina	614.42 614.599072
Soggetti	Environmental health - Research - Methodology Environmentally induced diseases - Epidemiology - Research - Methodology Indicators (Biology) Radiation - Toxicology Climatic changes - Risk assessment
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Cover; Half title; Series title; Title; Copyright; Contents; Acknowledgements; Over view of the book; Section 1; Section 2; Section 3; Section 4; Section 5; Section 6; Appendix 1; Appendix 2; Appendix 3; Glossary; Index
Sommario/riassunto	The impact of environment on human health is of growing concern to public, politicians and public health practitioners. Epidemiology offers a way of investigating and measuring potential hazards. This book describes methods available for public health practitioners to enable investigations to be carried out and how findings should be interpreted.
